PAUL VICK ARCHITECTS featured on AJ Tomorrow Stand at MIPIM London

Paul Vick Architects was featured on the AJ Tomorrow Stand at MIPIM London for their work at St Paul's Knightsbridge. The practice works across a number of different sectors, including cultural design, information technology and commercial urban development including mixed use. Within these sectors, there is a focus on producing 'hyper value' for the client, a model which we have presented to financial and academic institutions. We also continue to hold a 100% planning record.
