[Earth Day is today.](#) The Day is a reminder to protect the environment, restore damaged ecosystems and live a more sustainable life.

*This is the moment to change it all – the business climate, the political climate, and how we take action on climate. Now is the time for the unstoppable courage to **preserve and protect our health, our families, and our livelihoods.** For Earth Day 2022, we need to **act (boldly), innovate (broadly), and implement (equitably).** It's going to take all of us. All in. Businesses, governments, and citizens – **everyone accounted for, and everyone accountable.** A partnership for the planet.*

Paul Vick architects with Gifted Fundraisers are giving a talk on **Environmental, Social and Governance** on:

**Thursday 28 April, 2pm - 3pm.**

Where many multi-billion dollar investors are already using ESG criteria to evaluate risk before investing and national governments are looking to make ESG obligatory, how can you reassure investors and help sustain our future?

Paul will be talking about making ESG meaningful on a capital project; from the minefield of adapting a heritage building to be more energy efficient, to top tips on planning a low carbon, new build and the benefits of social adaptability.

We welcome you to join us, please follow the [zoom link](#).

### **The relevance of ESG to you**

- The government has had a published strategy for the financial sector including its investment reporting to be more environmentally focussed since 2019.
- Many multi-billion dollar investors have already committed to ESG criteria to assess investments.
- Environmental legislation and infrastructure are already fundamentally changing. This year there will be an increase in energy requirements under Building Regulations for example.
- Ideas of social inclusivity and patterns of operation are being re-written as we speak including around working, equity and social change.
- Transparent governance, clear values and responsibilities are central to providing leadership and stewarding of an organisation to fulfil its ES targets.
- **Government legislation on ESG reporting is looking to be introduced this year.**

Join us on **Thursday 28 April, 2pm - 3pm.**

Paul Vick architects brings you 100% planning permission record with new and existing buildings giving you the confidence your project can be successful and profitable.

Paul Vick architects will be at The Museums and Heritage Show, Olympia, London

**11-12<sup>th</sup> May 2022.**

**Call us** to arrange a meeting at, before or after the event.
