LOOKING AT PROGRESS

Watercolour of Cubitt's Blackfriars Bridge by Paul Vick

The Charity Article 25 (UN Declaration of Human Rights - 'everyone has a right to shelter') is delighted to announce that 10x10 London has returned. Recent projects by Article 25 include schools, earthquake resistance housing in Ghana, Morocco, Pakistan, Haiti and Burkina Faso. Click [Here](#) for more about their projects.

**10x10 London is Article 25's main fundraising event. It divides an area of London into a 10x10 grid. The 100 resulting squares are allocated to prominent architects, designers and artists, who create 100 unique artworks, together forming a snapshot of London.**

DRAWING  
[THE CITY]  
LONDON

This year's auction is now open and will close in the evening of T 1st Dec. 2015. The theme for this year's event is the Thames, with artists exploring the role the river plays in shaping our city. The 10x10: Drawing the River grid will follow the curvature of the river and take in the incredible variety of architectural landmarks built along its banks.

Paul Vick is one of the invited participants who has donated a painting for the event and his square includes Cubitt's Blackfriars Bridge. The title of his piece is 'Looking at progress'. Please click [Here](#).

In 2014 10x10 London, held in The Shard, raised £120,000 for Article 25. Contributors included Antony Gormley, Zandra Rhodes, Richard Wilson, Celia Birtwell, Conrad Shawcross and Norman Foster. Alastair Baird, Regional Managing Director of Barratt London, who has sponsored 10x10 for three consecutive years says:

*10x10 'Drawing the City London' is a fantastic celebration of the vibrancy of London & its architecture; but most importantly, the event raises vital funds for a charity that is focused on making the world a better place to live. As a London-focused business, we are cognisant of the fact we are fortunate to live in a city where clean water and education are taken for granted, and its been inspiring for all of the employees at Barratt London to be reminded of how provision of these basic services utterly changes lives.*
